

Exciting new changes for Districts

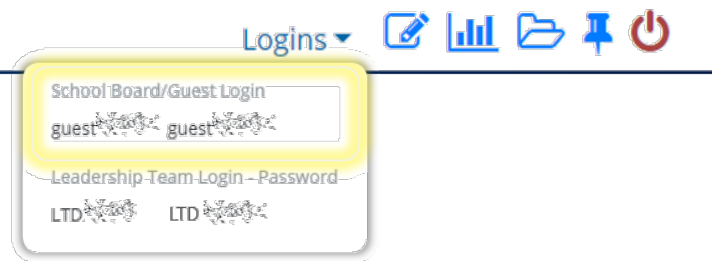

Updated: 3/9/2020

The District Guest page now serves as better access for School Boards, with quick access to not only the District's plan and recent work...but each active school!

Q. Where can our District find our School Board/Guest login and password to share?

A. The District School Board/Guest login and password can be found at the top right of the District's dashboard. Superintendent's should distribute the login and password to all those that have a vested interest in their local district and school improvement work!

Q. What will District Guests and School Board members see?

A. Not only will District Guests & School Board members see the District's plan, they can now drill down to each active School's plan by simply selecting a school name at the top of the page!
