Indistar®

Getting Better Together®

What Is Indistar®?

As educators, we contribute to students' success by elevating our own professional practice. Indistar® guides a Leadership Team through effective school or district practices, specific indicators, and Wise Ways®, all in a web-based platform. Indistar® focuses the Team on the principles that matter. The magic of Indistar® lies not in its technology but in the assistance it provides for a district or school team to efficiently drive improvement.

What Indi prov

Focused Team Collaboration

“Culture of candor” allows district and school personnel to talk openly and honestly about professional practices that contribute to student learning and success.

Guided Process

Effective practices broken down into indicators (selected by the district from Indistar’s extensive bank) guide a Leadership Team’s work.

Research Alignment

Wise Ways® technology links each indicator to a succinct synthesis of the related research and examples to guide team discussion.

Set Your Direction

Indistar® guides high-quality work by Leadership Teams with built-in flexibility to set your own direction, personalized to your needs.

Local Empowerment & Innovation

Guided high-quality work by school/district Leadership Teams with built-in flexibility to encourage local innovation.

Maintain Traction

Teams create agendas, record meetings, assign responsibility, set timelines, allocate resources, and monitor an indicator’s degree of implementation.

Coaching and Support

Indistar® allows a district to view real-time data of its own progress and that of its schools. District coaching for school teams is an essential feature of Indistar®.

Indistar® contributes to students’ success by helping professionals elevate their practice.

Your Leadership Team’s Best Friend

Because for **your** students, good enough **isn’t** good enough.

Why Choose Indistar®?

When district and school Leadership Teams adopt the Indistar® mindset, they soon discover the joy of engaging in deep discussion about the things that matter most—the professional practices of all staff in providing students with the education they deserve. Arriving at that mindset requires the right message, the right tone, and the right level of support.

“Indistar, first and foremost, provided us with the benchmarks and reflective moments to assess and know deeply what great instructional strategies are and whether or not we used them in our school and in every classroom.”

Lead Hill District Superintendent, AR

District and school improvement is best accomplished when directed by people closest to the student. Each district or school Leadership Team applies its own ingenuity to achieve the results it desires for its students. Choosing Indistar® means getting better together.
