128 MB of graphics memory	128 MB of graphics memory

Proper screen resolution is crucial to correct performance. Indicators in Action™ should be viewed on a monitor or projector set at 1024 x 768.

For optimal viewing, we also recommend:

- Not running additional programs when Indicators in Action™ is running
- Using a LAN or broadband internet connection
- Configuring your firewall, caching, or proxy server to allow access to www.centerii.org and www.indistar.org
